

## ***The Parent Project***

The Parent Project is a comprehensive award-winning model for school-based programs serving families. It is the only parenting skills program of its kind in the nation. It has been adopted for use by the Alabama State Department of Education.

The Parent Project is a course that provides activity based instruction, support groups, and curriculum addressing adolescent behaviors.

Parents will learn how to prepare their children for a successful school experience in middle and high school. It helps create a home discipline structure that works. The goal is to improve school attendance, performance, and to prevent alcohol, drug and gang involvement.

Parents will meet one night per week for ten weeks. Each session is two to three hours per session.
